CII DIGITAL | For
Digital

Inclusivity and
Sustainability

The economy of tomorrow is designed by digital technologies. With more personal computing, the inclusion of the cloud, and enhancement in customer experience, technology is paving the way to better business outcomes and inclusive growth. With enormous challenges and opportunities, the technology landscape of India has been at the rapid pace of development complemented by the proliferation of the internet, and smart devices. The CII Digital activities in 21-22 will uproot the lack of awareness and roadblocks among Indian enterprises to face the digital wave and prepare them for global competitiveness via Digital Transformation.

Read the ninth edition of DX dialogue. I seek your valuable inputs and connect with you for more activities planned in the year ahead at CII Digital. You can reach me at cdt@cii.in
